What others are saying about being members of the ILC:

"The ability to transform our business and remain agile is a competitive advantage in this current work environment. Because of Lean and our relationship with the Iowa Lean Consortium, Vermeer has been able to quickly reconfigure both our manufacturing and business processes to match the way we need to work today."
—Larry Ehlinger, Vermeer

"Muscatine Power and Water is a founding member of the ILC. We continue to participate because it provides us with a way to connect to other organizations across the state—build relationships, learn from others, and share our successes and opportunities. The training opportunities we receive as a member of the organization pay for themselves many times over."
—Jennifer Peterson, Muscatine Power & Water
